C Is Student aware of contact /exposure with someone who has been diagnosed with or tested positive for Covid-19?

B STUDENTS/PARENTS WILL

1. Notify administrator and stay home or if at school, student will be isolated and need to be picked up within 60 minutes
2. Contact physician and follow medical care
3. Obtain COVID-19 Test

ADMINISTRATOR WILL

1. Contact Pastor (if applicable) & OCSC

If Student Tests Positive

If Student Tests Negative

D

STUDENTS/PARENTS WILL

1. Notify administrator of result
2. Contact individuals outside of school community with whom child had close contact
3. Continue medical care as instructed
4. Follow **FL-DOH Guidelines** and return to school only after: 10 days since symptoms first appeared **and** 24 hours with no fever without the use of fever-reducing medications **and** other symptoms of COVID-19 are improving

ADMINISTRATOR WILL

1. Notify Pastor (if applicable) & OCSC
2. Contact trace in school using seating charts and asking student for close contacts
3. Notify teachers and students who were identified as close contact
4. Implement school contingency plan, if necessary, after consultation with local health department, Pastor, and OCSC
5. Send general communication to staff and parent community
6. Complete the OCSC COVID-19 Reporting Form

E

STUDENTS/PARENTS WILL

1. Notify Administrator of result (copy of results to administrator)
2. Continue medical care as instructed
3. Return to school after 24 hours have passed since recovery (No fever and general improvement of symptoms)

F

Yes, there was direct physical or close contact (less than 6 feet) for 15 minutes or more where one or both parties were not using face masks or coverings. If not vaccinated or COVID positive in last 90 days, follow instructions below.

STUDENTS/PARENTS WILL

1. Notify administrator
2. Contact child's physician
3. Monitor by checking for fever and symptoms
4. Follow **FL-DOH Guidelines**
Asymptomatic student may remain in school if:
 - a. She/he wears a mask **and receives a COVID-19 test after 4 days** from the date of last exposure. If test is negative, students does not need to wear mask; if positive, go to **Section D**; or
 - b. She/he wears a mask for **7 days** from the date of last exposure.
- Asymptomatic student** chooses not to wear a mask in school during quarantine period, **must** remain at home until:
 - i. Student receives a negative diagnostic COVID-19 test **after 4 days** from the date of last exposure; or
 - ii. **7 days** have passed since the date of the last exposure.
5. If the student becomes symptomatic following exposure to an individual that has tested positive for COVID-19, go to **Section B**

ADMINISTRATOR WILL

1. Notify Pastor (if applicable) & OCSC
2. Communicate with parents about when child can return to school

G

No, the student is unaware of any contact with someone who is infected or diagnosed with Covid-19

STUDENTS/PARENTS WILL

1. Continue practicing social distancing, good hygiene, and other preventative measures as directed by the school and CDC

ADMINISTRATOR WILL

1. No specific action is needed

H

A student who has received a positive diagnostic test for COVID-19 in the previous 90 days and is known to have been in direct contact with an individual who has received a positive diagnostic test for COVID-19 is not subject to the protocols in **Section F**. This applies equally to students that are fully vaccinated for COVID-19.
